#INTRO

Maybe you will love me one day

#VERSE
Life can change before you blink
It's less predictable than you think
Only the strongest will survive
While fragile hearts fight to stay alive
Love and hate, too strong to handle
Lies burn the soul like a dying candle

#CHORUS
Maybe next life, we'll be together
Maybe we'll know how to love each other better
Maybe we'll find a love that lasts forever
And maybe we won't give up on each other
Maybe I wasn't the right one for you
Maybe you deserved more than I knew
Maybe my love wasn't enough to see us through
But I'll never live that dream without you

#VERSE
Life moves on and won't look back
Leaving only pain along its track
It's our destiny to die alone
Yet love outlives our flesh and bone
Through life and death, we try to be brave
With all the weight we carry to the grave

#CHORUS
Maybe next life, we'll be together
Maybe we'll know how to love each other better
Maybe we'll find a love that lasts forever
And maybe we won't give up on each other
Maybe I wasn't the right one for you
Maybe you deserved more than I knew
Maybe my love wasn't enough to see us through
But I'll never live that dream without you

#HOOK
Maybe! Maybe! Maybe!

#CHORUS
Maybe next life, we'll be together
Maybe we'll know how to love each other better
Maybe we'll find a love that lasts forever
And maybe we won't give up on each other
Maybe I wasn't the right one for you
Maybe you deserved more than I knew
Maybe my love wasn't enough to see us through
But I'll never live that dream without you

#OUTRO
Maybe someday
Our love will find its way

Black Sheep

#VERSE
Everyone has something
A good life, a dream, or someone to love
Or maybe they're just lucky with everything
Like it's the most normal thing
But not me
Not for the black sheep

#CHORUS
I am the black sheep
'Cause I don't know what love is
They call me the black sheep
'Cause I'm the unwanted one
Everything burns inside me
It's too late to be a white sheep
Forever the black sheep of the family

#VERSE
People come and go
I will never trust in love again
There's something in my life
That I cannot really understand
It's always me
The black sheep will never be free

#CHORUS
I am the black sheep
'Cause I don't know what love is
They call me the black sheep
'Cause I'm the unwanted one
Everything burns inside me
It's too late to be a white sheep
Forever the black sheep of the family

#BRIDGE
How did this even happen to me?
Why does life treat me like this?
What do others have that I don't have?
In the end, the black sheep is on his own

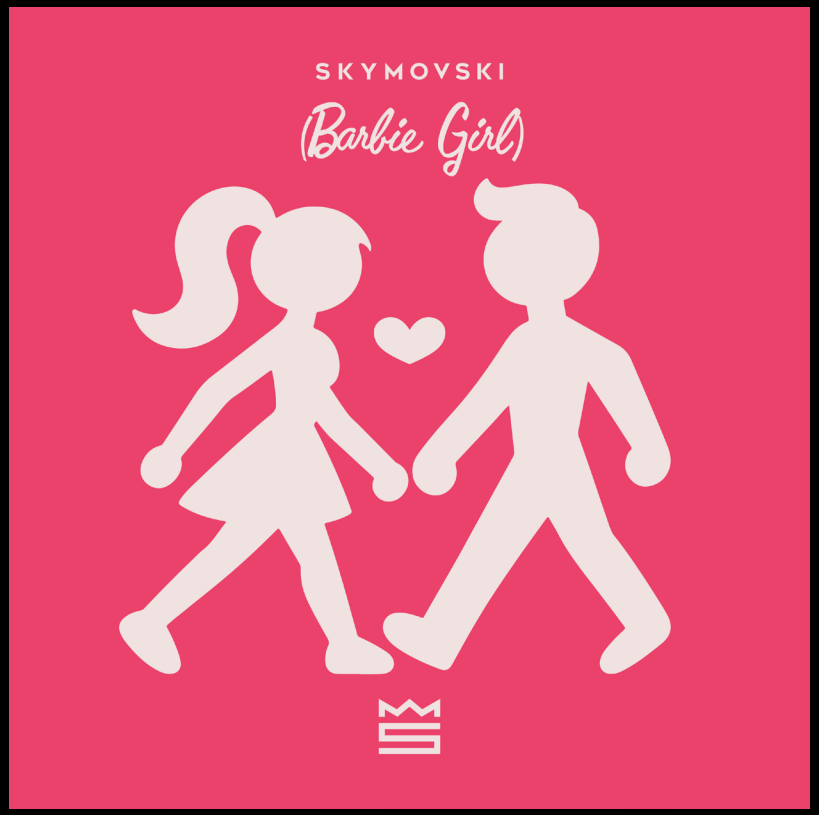

#HOOK
Black sheep!

#CHORUS
I am the black sheep
'Cause I don't know what love is
They call me the black sheep
'Cause I'm the unwanted one
Everything burns inside me
It's too late to be a white sheep
Forever the black sheep of the family

#CHORUS
I am the black sheep
'Cause I don't know what love is
They call me the black sheep
'Cause I'm the unwanted one
Everything burns inside me
It's too late to be a white sheep
Forever the black sheep of the family

Two Sides of the Mirror

#VERSE
Look deep into my eyes
Tell me what you see
Be the one who loves me still
Like I loved you endlessly
In front of us, just you and me
We lose ourselves in this reflection
The trust between us is gone
Nothing will ever be the same again

#CHORUS
You were my better half
Dark and light within our hearts
Now we've shattered into pieces
Only truth and lies between us
One side was real, the other fake
The illusion destroyed us both
My soul is trapped inside the mirror

#VERSE
I see demons staring back at me
The mistakes and scars I've left behind
Now my faith is fading away
My life is drifting to the other side
The mirror has become my cage
My shadow trapped behind the glass
Tears and pain stain the wall
Please don't leave me here alone

#CHORUS
You were my better half
Dark and light within our hearts
Now we've shattered into pieces
Only truth and lies between us
One side was real, the other fake
The illusion destroyed us both
My soul is trapped inside the mirror

#HOOK
My past hides behind the mirror
My present stands before the mirror
My future is trapped inside the mirror

#CHORUS
You were my better half
Dark and light within our hearts
Now we've shattered into pieces
Only truth and lies between us
One side was real, the other fake
The illusion destroyed us both
My soul is trapped inside the mirror

Shadow of myself

#VERSE
It was never the right moment
My heart got lost inside your world
It was never the perfect time
Our love was never meant to survive
But one question still lingers in my mind
Was there ever anything real about you?

#CHORUS
You walked away from me
I could never stop you from leaving
Like the wind, so fast and unstoppable
Now every day feels so lonely
You are better off without me
I was the shadow of your life
We lost ourselves with every passing second
The silence keeps these scars alive

#VERSE
I fell in love with you at first sight
But destiny was against me from the start
My feelings were always real
But you were trapped deep inside your trauma
And one question still burns inside me
Did you ever love me the way I loved you?

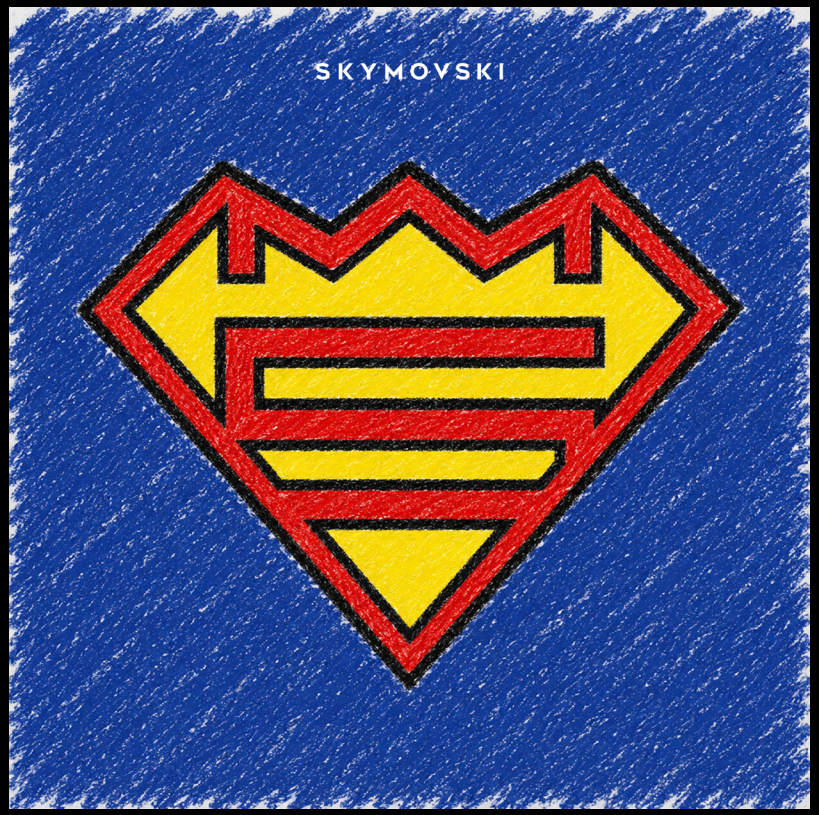

#CHORUS
You walked away from me
I could never stop you from leaving
Like the wind, so fast and unstoppable
Now every day feels so lonely
You are better off without me
I was the shadow of your life
We lost ourselves with every passing second
The silence keeps these scars alive

#HOOK
I always stood behind you
Forgotten, invisible even to myself
My life lost all its light with you
Now I live as nothing but a shadow without you

#CHORUS
You walked away from me
I could never stop you from leaving
Like the wind, so fast and unstoppable (Like the wind)
Now every day feels so lonely (So lonely)
You are better off without me (Without me)
I was the shadow of your life (The shadow)
We lost ourselves with every passing second
The silence keeps these scars alive (Deep scars)

Superman
My Supergirl

#VERSE
I know that we're two worlds apart
We never planned to share one heart
My heart keeps pounding through my chest
To see if our love survives this test
I'd fly wherever you may be
You are the best part of me
The clouds have shown the way to you
Now all my roads are leading through

#CHORUS
You call me crazy
But I'm still your Superman
Don't let our love fade away
Let me save us while I can
I'm just a lonely soul
Be the girl who makes me whole
We can be heroes together
Be my Supergirl forever

#VERSE
We come from two different planets
I still don't understand God's plans
How we found each other in the dark
When you deserve a better heart
Don't regret the things we did
I'm the one who couldn't fit
We were a dream I tried to pursue
Superman can't fly without you

#CHORUS
You call me crazy
But I'm still your Superman
Don't let our love fade away
Let me save us while I can
I'm just a lonely soul
Be the girl who makes me whole
We can be heroes together
Be my Supergirl forever

#BRIDGE
Superman
Supergirl
We're still chasing the love inside
Before our whole lives turn to lies

Let me save us while I can
I'm just a lonely soul
Be the girl who makes me whole

Boss

#VERSE
Hello there, sweetheart girl
I'm here for you to stay
We can talk about our feelings
So let me look into your eyes
What do you really mean?
Do you hide a secret dream?
Do you need a little love?
Or just the key to my heart?

#CHORUS
I am Boss, your Boss
You can call me by my name
I am Boss, your Boss
Don't stop me from loving you
I am Boss, your Boss
In my dreams I long for you
I'm your Boss, so be my wife!
God damn!

#VERSE
Now we are both here tonight
Laughing about our fights
Trying to figure out the past
And what we should do next
Is it right to stay with you?
Should we trust these feelings now?
Why does love feel so confusing?
When we're lost inside this dream

#CHORUS
I am Boss, your Boss
You can call me by my name
I am Boss, your Boss
Don't stop me from loving you
I am Boss, your Boss
In my dreams I long for you
I'm your Boss, so be my wife!
God damn!

#HOOK
I'm your Boss
I'm your Boss
I'm your Boss, so be my wife!
God damn!

#CHORUS

#VERSE
I have wished for you my whole life long
And for your life to become a part of mine
The two of us together for eternity
As if we had been ready all along
Someday our paths will cross, I know
I will recognize you at first sight
Our hearts will finally become pure
My love will always belong to you

#CHORUS
Someday the sky will become brighter
My heart will grow, my life will gain color
When all the pain inside me disappears
And only you remain here by my side
Then I will know without a doubt
You are my wife

#VERSE
Someone like you cannot be found in my world
Like the most beautiful flower that catches my eye
You are my dream that can finally come true
As if we had known each other all our lives
We let the past slowly fade away
Even though its darkest shadows still live in us
I recognize my scars within you
Two wounded souls facing the same truth

#CHORUS
Someday the sky will become brighter
My heart will grow, my life will gain color
When all the pain inside me disappears
And only you remain here by my side
Then I will know without a doubt
You are my wife

#BRIDGE
You are my light in the dark
Bring peace into my broken heart
Now nothing but happiness flows through my soul
I will love and honor you forever
And never leave your side again

#HOOK
Someday the sky will become brighter (Brighter)
My heart will grow, my life will gain color (Oh)
When all the pain inside me disappears (The pain)
And only you remain here by my side (Only you)

#VERSE
The king is always on his own
Hides all the darkness in his bones
Fighting demons deep inside
Where all his frozen feelings hide
He wears a crown of scars and pain
His mind is chained by sin and blame
His thoughts are filled with endless cries
Wounds that never heal inside
Darkest days and coldest nights
Turn all his dreams into his fights
The bleeding marks of all his might
Protect his kingdom with his life

#CHORUS
The king walks through the darkest times
Fighting shadows from the past he made
Protects the flame of love like a lone wolf
But his heart turns ice in a frozen world
That is the curse of the King of the North

#VERSE
They only see a king in snow
Who leads his people through the storm
But deep inside his past still lives
A war within he always feels
The hatred buried in his chest
Has cursed his faith and left him wrecked
A scream from a frozen devil's soul
Where all his memories lose control
Every scar shines in the light
Guides his courage through the night
Thoughts of anger never fade
Freeze his heart in endless pain

#CHORUS
The king walks through the darkest times
Fighting shadows from the past he made
Protects the flame of love like a lone wolf
But his heart turns ice in a frozen world
That is the curse of the King of the North

#HOOK
King of the North
King of the North
King of the North

#PRE-CHORUS
The king walks through the darkest times
Fighting shadows from the past he made
Protects the flame of love like a lone wolf
But his heart turns ice in a frozen world

#VERSE
When I met you back then (My love)
You were so sweet and cute
Like cotton candy at the fair
With popcorn in the cinema next to me
Your heavenly curves
Like my favorite cocktail named after you
I couldn't get you out of my head
But suddenly everything changed with you

#PRE-CHORUS
I only wanted my heart to stay with you
But your lies poisoned all the truth
Between smoke and all your little games
The hope for our future slowly died

#CHORUS
Your eyes are way too toxic
To-toxic, toxic, toxic, toxic
Your words are way too toxic
Toxic, toxic, toxic, toxic
Your mind is way too toxic
To-to-toxic, to-to-toxic
You are toxic, toxic
Way too toxic!

#VERSE
Every fight like a knife inside my heart
Your love only brought chaos and scars
Between smoke, drama and cold rage
You were like amphetamine in my veins
Like music deep inside my ears
Now all my thoughts dissolve in tears
You never cared how much I cried
Your weed meant more than the love in us

#PRE-CHORUS
I only wanted my heart to stay with you
But your lies poisoned all the truth
Between smoke and all your little games
The hope for our future slowly died

#CHORUS
Your eyes are way too toxic
To-toxic, toxic, toxic, toxic
Your words are way too toxic
Toxic, toxic, toxic, toxic
Your mind is way too toxic
To-to-toxic, to-to-toxic
You are toxic, toxic
Way too toxic!

#HOOK
Toxic, toxic, toxic, toxic
Your words were poison for my soul (Toxic!)
Your hate destroyed the love in me (Toxic!)
No dreams of a family anymore
But I still can't let go of you
Even if my life would be better without you

#CHORUS
Your eyes are way too toxic
To-toxic, toxic, toxic, toxic
Your words are way too toxic
Toxic, toxic, toxic, toxic
Your mind is way too toxic
To-to-toxic, to-to-toxic
You are toxic, toxic
Way too toxic!

Fire in my mind
Where the pain lives deep inside
My thoughts burn through my head
Bringing courage back again
Hot and bright
The fire shows me how to fight
A spark of hope
That leads me to my throne

I am Lion
Rising from inside the fire
I am Lion
Like truth from phoenix ashes
I am Lion
Fighting till the end of destiny
Fire and Lion
Both burn with a heart's desire

Shield of a lion
Guarding truth from all lies
Fire under my skin
Where the memories burn within
Brave and strong
In the shadows of a lion's soul
A burning heart
Is my light in the dark

I am Lion
Rising from inside the fire
I am Lion
Like truth from phoenix ashes
I am Lion
Fighting till the end of destiny

Deeper than any wound
This is a lion's soul

#VERSE
Back then it all felt simple
Now it lives in memories
We never knew of worries
We were drifting with the breeze
We were little heroes
Building castles out of dreams
With nothing in our hands
Still we had everything
We were breathing freedom
Like flowers in the summer wind
And we never realized
How fragile we had been

#CHORUS
We were just happy children
Never complaining at all
When the world played louder songs
We were laughing through it all
We were endlessly fearless
Carrying colors inside
When the world still felt so weightless
And nothing broke us apart
The joyful children from back then
And then it all was gone

#VERSE
Back then it all felt brighter
We were curious and free
Our names carried by the wind
Time moved endlessly
We told all our stories
To the forests and the skies
We were more than just friends
We were stars in disguise
Memories last forever
Even when life moves fast
We were like innocent birds
Never meant to last

#CHORUS
We were just happy children
Never complaining at all
When the world played louder songs
We were laughing through it all
We were endlessly fearless
Carrying colors inside
When the world still felt so weightless
And nothing broke us apart
The joyful children from back then
And then it all was gone

#VERSE
You wake up, looking at the clock
Time just passes like clouds above
Reality hits you hard and cold
Like the wind at your window — nothing to hold
If we were still children, watching each other
Where time stands still forever (In Neverland)
If we were still young, no weight in our hands
Where life shines brighter again (In Neverland)
Somewhere our souls still laugh and remain
The journey begins, I pull you up
We're shadows of love, forever bound

#PRE-CHORUS
Peter Pan, I need you now
Save me from this darkened cloud

#CHORUS
Oh Peter Pan, oh Peter Pan
I fly with you to Neverland
No more worries, no more pain
Just endless dreams inside our veins
Oh Peter Pan, oh Peter Pan
Take me with you, take my hand
No more sorrow, no more time
Just you and me for all our lives

#VERSE
You fall asleep, watching the stars
Fear drifts slowly through time and space
Your breath turns cold and starts to fade
Your shadow dances on my wall
If we were still friends through thick and thin
Where no more lies could ever begin (In Neverland)
If we were still free, with a smile on our face
Where our love would never break (In Neverland)
Somewhere our souls still laugh and remain
The journey begins, I pull you up
We're shadows of love, forever bound

#PRE-CHORUS
Peter Pan, I'm missing you
Come back and take me there with you

#CHORUS
Oh Peter Pan, oh Peter Pan

Pirates ahoy! (Ay ay!)
Skymovski!
Land in sight! (Arrr!)

#VERSE
I came here alone, there was nobody there
Searching for a goal that I lost somewhere
In the storm at sea, I was sailing so slow
Losing my way to you more and more
Now I'm standing right here while the sand drains my soul
A message in a bottle, waiting years on the shore
My clothes full of dirt, my thoughts full of you
When I find you one day, I'll wash away my guilt
I need you like rum just to stay alive
You're my safe harbor, where I anchor my life

#CHORUS
My instinct tells me you're still somewhere here
My bleeding heart, sharp like a sword
A skull on my skin, like a treasure map to you
My lonely soul, always searching for you

#VERSE
I'm looking for you on every island around
In my dreams, where emotions collide without a sound
I'm a lonely wolf, still fighting for you
To win in this life, I need your love to come true
Now I'm standing right here, lost in despair
Cold water and wind, but hope is still there
The sky shows me the way that's right for me
Like a treasure chest with no key in sight
The compass goes crazy, all directions fade
I haven't found you yet, but my faith remains

#CHORUS
My instinct tells me you're still somewhere here
My bleeding heart, sharp like a sword
A skull on my skin, like a treasure map to you
My lonely soul, always searching for you

#VERSE
The pain is gone
But not the feelings for you
I'm still here
Just not with you
I need the sky
From there I see things clearer
I'll show you my world
Far above your dreams

#CHORUS
Your hand guides me
Like Zeus in rage through storm and time
Your heart seduces me
Like Aphrodite, cruel and sweet
Your soul destroys me
Like Hades at love's silent edge
Between heaven and hell
We're standing right on the line

#VERSE
Our love is over
And with you went my faith
You're no longer here
Without you I am nothing
For you I would walk through hell
Searching for you with all my strength
I'll bring you safely home again
Eternity belongs to us alone

#CHORUS
Your hand guides me
Like Zeus in rage through storm and time
Your heart seduces me
Like Aphrodite, cruel and sweet
Your soul destroys me
Like Hades at love's silent edge
Between heaven and hell
We're standing right on the line

#BRIDGE
Whose fault it truly was
We'll never really know
Maybe it was never meant
For our love to come true

#CHORUS
Your hand guides me (Your hand)
Like Zeus in rage through storm and time
Your heart seduces me (Your heart)
Like Aphrodite, cruel and sweet
Your soul destroys me (Your soul)
Like Hades at love's silent edge
Between heaven and hell
We're standing right on the line

#OUTRO
I still think of you
I hope you think of me
My heaven

#INTRO
Ey brother
Pack your things
Skymovski protects you

#VERSE
We ride out straight to Birmingham
Where life is forged in steel
No talk, no pain, no regrets
Just respect, sweat, and our gang
I speak – you stay silent (paw)
I aim – you fall (paw)
Who runs these streets as the boss
You all already know
When the shadows start moving
His name rises from the fog
Your sins are already known to us
We destroy the evil at its core (oh yeah)

#CHORUS
You and I, as loyal as brothers in arms
Just us two, no one keeps up with us, damn
Everyone fears us, they step aside fast
'Cause we are ghosts that can't be defeated
So cold and hard like Thomas Shelby
Nothing is stronger than our belief
We fight our enemies with it
That's the power of the Peaky Blinders (paw paw)

#VERSE
Through dirt, mud, and rain
No one can stand against us
Our rules, our business, our city
And our scars like medals made of pure lead
I shout – you run away (paw)
I shoot – you're dead (paw)
Who the king of this city is
You've all known for a long time
Eyes of ice, heart of concrete
Our courage made of fire – your envy is our reward
We carry our family in our hearts
Like weapons that protect and honor us

#CHORUS
You and I, as loyal as brothers in arms
Just us two, no one keeps up with us, damn
Everyone fears us, they step aside fast
'Cause we are ghosts that can't be defeated
So cold and hard like Thomas Shelby
Nothing is stronger than our belief
We fight our enemies with it
That's the power of the Peaky Blinders (paw paw)

#BRIDGE
Paw! I am the silent judge (paw paw)
Paw! I shoot you all down (paw paw)
Paw! I win again and again (paw paw)
Paw! You and I – we are made of gold
Peaky Blinders – timeless, forever united

#CHORUS
You and I, as loyal as brothers in arms (oh)
Just us two, no one keeps up with us, damn (oh)
Everyone fears us, they step aside fast (oh)
'Cause we are ghosts that can't be defeated (paw paw)
So cold and hard like Thomas Shelby (oh)
Nothing is stronger than our belief (oh)
We fight our enemies with it (oh)
That's the power of the Peaky Blinders (paw paw)

#INTRO
Dla mojej Mamy

#VERSE
Wszystko zaczęło się od ciebie
Dałaś mi talent i okazję bycia
I do tej pory dajesz mi więcej
Niż mógłbym sobie wyobrazić
W tamtej ponurej, burzowej nocy
Byłaś bardzo dzielna i wytrwała
Tak jakbyś wiedziała, że to ja
Chcę tu być i oddychać życiem tym

#CHORUS
Mamo, przy mnie jesteś i nade mną czuwasz
Mamo, nigdy nikt ciebie nie zastąpi
Mamo, na zawsze zostaniesz w moim sercu
Mamo, Mamo, Mamo

#VERSE
Pamiętam jeszcze aż do dziś
Jak uczyłaś mnie chodzić ostrożnie
Nosiłaś mnie na rękach
I śpiewałaś do zaśnięcia
Za każdym razem mnie wspierałaś
I dawałaś mi wiarę na przyszłość
Od kołyski, komunii aż do dorosłości
Byłaś ze mną na każdym moim kroku

#CHORUS
Mamo, przy mnie jesteś i nade mną czuwasz
Mamo, nigdy nikt ciebie nie zastąpi
Mamo, na zawsze zostaniesz w moim sercu
Mamo, Mamo, Mamo

#VERSE
Dziś jestem już dorosły
Mam swoje życie i własne problemy
Ale nigdy o tobie nie zapomnę
Bo codziennie dodajesz mi otuchy
Oby to trwało wiecznie
Na zawsze — te czasy jak marzenia
Jestem ci wdzięczny aż do końca życia
Że mnie wychowałaś i tak mocno pokochałaś

#CHORUS
Mamo, przy mnie jesteś i nade mną czuwasz
Mamo, nigdy nikt ciebie nie zastąpi
Mamo, na zawsze zostaniesz w moim sercu
Mamo, Mamo, Mamo

#HOOK
Mamo, Mamo, Mamo
Mamo, Mamo, przy mnie jesteś
Mamo, Mamo

#VERSE
Is it really the number
That means something to me?
Is it really love
That tears me apart so quietly?
Is it really the time
That's constantly passing by?
Is it really the moment
That breaks me again?
Is it really the courage
That keeps me alive?
Is it really the sign
That doesn't let me sleep at night?

#CHORUS
Cause the clock hits three, three, three again
The devil's hour never fades
In a dark room, I am all alone
Without you, I feel weak and small (Weak and small)

#VERSE
Is it really the answer
That makes me believe?
Is it really the art
That is changing me?
Is it really the chaos
That never stops?
Is it really the past
That won't let me go?
Is it really the shield
That gave me an angel?
Is it really the darkness
That created me?

#PRE-CHORUS
Cause the clock hits three, three, three again (Three three three)
The devil's hour never fades (Never fades)
In a dark room, I am all alone (All alone)
Without you, I feel weak and small (Weak and small)

#CHORUS
Cause the clock hits three, three, three again (Three three three)
The devil's hour never fades (Never fades)
In a dark room, I am all alone (All alone)
Without you, I feel weak and small (Weak and small)

#VERSE
Outside just my friends, the night, the moon, the light
Inside my head just enemies, the thoughts, the pain, the emptiness
Outside there's only darkness, cold and wind
Inside my head there's only you and me and the goodbye

#CHORUS
There will be someone in your life who values you
And loves you just the way you are
There will be that one day when everything suddenly ends in loss
There will be that one moment when love doesn't matter anymore
And everything fades away
And I don't know where I belong or how our story will even end

#BRIDGE
I'm sorry, it was my fault
Please forgive me

#VERSE
In the mornings in my dreams, the day, the sun, the life
In the nights in my nightmares, the loss, the longing, the desire
In the mornings there's only silence, warmth and fog
Inside my thoughts there's only the two of us and our goodbye

#CHORUS
There will be someone in your life who values you
And loves you just the way you are (Just the way you are)
There will be that one day when everything suddenly ends in loss
There will be that one moment when love doesn't matter anymore
And everything fades away (Fades away)
And I don't know where I belong or how our story will even end
There will be someone in your life who values you
And loves you just the way you are (Just the way you are)
There will be that one day when everything suddenly ends in loss
There will be that one moment when love doesn't matter anymore
And everything fades away (Everything fades away)
And I don't know where I belong or how our story will even end

Meine Damen und Herren
Skymovski hier
Das ist Lambo Jambo (hah)

#VERSE
1, 2, 300 km/h
Ich geb nur Vollgas, keine Bremsen hier
Fahre so schnell wie ein Lambo
Das Leben bremst mich nicht mehr
Ich kann alles erreichen
Keiner hält mich auf, ihr Bitches (uh)
Ich bin mein eigener Fahrer
Mein Weg, mein Film, mein Business – Wallah

#CHORUS
Ein kleines Stück von Celina, in meinem Leben
Ein kleines Stück von Fiorella, in meinem Auto
Ein kleines Stück von Lisa, an meiner Seite
Ein kleines Stück von Dani, die ich brauche
Ein kleines Stück von Paula, die ich sehe
Ein kleines Stück von Freya, in der Sonne
Ein kleines Stück von Luna, in der Nacht
Ein kleines Stück von dir, die ich heirate – safe
In meinem Lambo Jambo (hah)

#VERSE
Vor mir ‚ne Ampel im Übergangslicht
Jede Farbe entscheidet über mein Schicksal
Ich seh nur Blau, wie meine Hoffnung
Welche wird die nächste sein? (hm)
Bei Grün zieh ich weiter
Bei Rot bleib ich hier
Zu viele Entscheidungen
Die mich ständig begleiten

#CHORUS
Ein kleines Stück von Celina, in meinem Leben
Ein kleines Stück von Fiorella, in meinem Auto
Ein kleines Stück von Lisa, an meiner Seite
Ein kleines Stück von Dani, die ich brauche
Ein kleines Stück von Paula, die ich sehe

Lass uns nie mehr bremsen

#VERSE
I wake up in the night
Everything's so still
Your name inside my head
Even though I never meant it
My body cold and numb
The nightmare screams out loud
I see you in the dark
Like you're still around
You knock inside my dreams
Like scars upon my heart
I keep on asking where you are
,cause you were mine from the start

#CHORUS
I'm alone - Lost inside the night
Alone - Trapped inside my mind
So alone - Time just stands still
Alone - But I'm trying to move on
I'm alone - Everything feels so real
Alone - I don't dream the same anymore
I'm alone - Only my heart is still awake
Alone - But you're not here with me

#VERSE
I look at my phone
No message from you
Like an empty battery inside me
But I'll never forget you, babe
My thoughts are running wild
This night feels like a cage
My soul is drowning in tears
And you're not next to me
A thousand questions in my head
I miss you way too much
I miss everything we had
This craving's killing me (Killing me)

#CHORUS
I'm alone - Lost inside the night
Alone - Trapped inside my mind
So alone - Time just stands still
Alone - But I'm trying to move on
I'm alone - Everything feels so real
Alone - I don't dream the same anymore
I'm alone - Only my heart is still awake
Alone - But you're not here with me (But you're not here with me)

#HOOK
I'm alone
I'm alone
I'm alone
I'm alone

#VERSE
Your heart, blue like a sapphire
Like the pain the Titanic lost
Your dark glances, cold as the ocean
Pull me deeper into the dark
Your eyes, green like an emerald
So beautiful, I can't resist
I'm fooled by just this one feeling
That we'll somehow find our way back
Your lips, red like burning rubies
A firestorm of broken truths
Every word that once defined us
Turns to ash where our love once grew

#PRE-CHORUS
But your soul, I saw it clearly
Pure and clear like a diamond

#CHORUS
Oh diamond, my diamond
I'm losing all control of my mind
Oh love, my love
If only this could last forever
But one thing I already know
You are my pride, my treasure, my home
Now my life drifts inside dreams
Missing what we once believed
I love you — for now

#VERSE
Your heart, clear like a sapphire
Like the sorrow the Titanic carried
Your darker side, cold as steel
Lets me drown where light is gone
Your eyes, shone like an emerald
So beautiful and painfully bright
And all I see inside of you
Is the loss of our shared laughter too
Your lips, were red like burning rubies
A firestorm we couldn't outrun
All the words that shaped our story
Left ashes where our love once was

#PRE-CHORUS
But your soul, I saw it clearly
Pure and clear like a diamond

#CHORUS
Oh diamond, my diamond
I'm losing all control of my mind
Oh love, my love
If only this could last forever
But one thing I already know
You were my pride, my treasure, my home
Now my life drifts inside dreams
Missing what we once believed
I love you — for now

#INTRO
(O, O, O)

#VERSE
Suwałki, Suwałki — to moje miasteczko
Tu urodzony i duchowo wychowany
Tu się uczyło, grało, kopało
Dziś niestety już tylko w pamięci zostało
Po co mi Stany, Niemcy czy Chiny
Nic nie zastąpi mi tamtej chwili
Tylko tutaj wyśmienite są nasze kartacze
Śnieżne zimy i suwalskie niebo na mapie

#PRE-CHORUS
Zawsze tu wracam, wspominam, doceniam
Nasz Kaczy Dołek, czy Park Konopnickiej
Biało-Niebiescy wygrywają, po Plazie chodzimy
Miasto nigdy nie śpi — aż miło to widzimy

#CHORUS
O, Suwałki, te Suwałki
Najpiękniejsze są jak z bajki
Przy Mazurach, nad Wigrami
Spędzać trzeba czas garściami
Żadna Wawka, czy Krakówka
Dla wybranych tylko Suwka
Bo Suwałki są najlepsze
Dla wybitnych — takie miejsce

#VERSE
Suwałki, Suwałki — to więcej niż miasto
To Suwalszczyzna jak złote Królestwo
Biegun zimna, niczym groźna Syberia
Ale klimat serc jak najjaśniejsze święta
Przez lasy i rzeki, aż po lotnisko
Całe Suwałki zwiedzisz z naszym Łosiem blisko
Na ulicy Kościuszki konwalie w bieli
Lecz zielone bulwary latem najpachniejsze

#PRE-CHORUS
Od Kolei, przez Utratę
Aż po Czarną Hańczę — znamy tę mapę
Popływać nad Zalewem, albo w Aquaparku
Tu każdy znajdzie swoje miejsce, jak w gwiezdnym znaku
(Bez czasu na zegarku)

#CHORUS
O, Suwałki, te Suwałki
Najpiękniejsze są jak z bajki
Przy Mazurach, nad Wigrami
Spędzać trzeba czas garściami
Żadna Wawka, czy Krakówka
Dla wybranych tylko Suwka
Bo Suwałki są najlepsze
Dla wybitnych — takie miejsce

#BRIDGE
O, Suwałki, me Suwałki
We mnie żyją i nigdy nie zginą
Ukochane Suwałki

#VERSE
Wenn unsere Spuren uns erinnern
An all das, was wir je erlebt haben
Fragen wir uns, warum wir uns so oft streiten
Du weißt genau, was du mit mir machst
Einmal bist du süß, dann wieder kalt
Doch ich weiß auch, wie sehr du mich magst

#PRE-CHORUS
(Oh)
Unsere Art ist schwer zu lesen
Dadurch verlieren wir uns im Leben
Doch ich weiß, woher das alles kommt
(Oh)
Ich bin immer für dich da
Auch wenn du es nicht glaubst
Stehe still an deiner Seite

#CHORUS
Wir bleiben hier
Für immer du und ich
Wir beide schauen in den Himmel
Bis jede Sternschnuppe uns berührt

#VERSE
Ob's Feiern oder ins Kino gehen
Wir sind so durch, wie verlorene Seelen
Die sich finden, in schlaflosen Nächten
Beide unfair vom Leben geprägt
Auf der Haut, jedes Erlebnis erwähnt
Wie zwei Engel mit Narben im Herzen

#PRE-CHORUS
(Oh)
Unsere Art ist schwer zu lesen
Dadurch verlieren wir uns im Leben
Doch ich weiß, woher das alles kommt
(Oh)
Ich bin immer für dich da
Auch wenn du es nicht glaubst
Stehe still an deiner Seite

#CHORUS
Wir bleiben hier
Für immer du und ich
Wir beide schauen in den Himmel
Bis jede Sternschnuppe uns berührt
Wir bleiben hier
Für immer du und ich
Wir beide schauen in den Himmel
Bis jede Sternschnuppe uns berührt

Oben, oben, oben, ganz oben

#VERSE
Du bist meine Prinzessin
Meine Liebe und mein Leben
Dir will ich alles geben
Damit du glücklich bist in deinem Leben
Ich würde dir sogar den Mond stehlen
Nur um dein süßes Lächeln zu sehen
Doch sag mir
Wie lange muss ich noch allein im Regen stehen?
Ich will mit dir einschlafen
Und neben dir aufwachen
Denn nichts auf dieser Welt ist schlimmer
Als ein Tag ohne dein Lachen

#CHORUS
Also küss mich
Küss mich bis ich sterbe
Denn du bist die geilste Freundin
Die ich kenne
Denn du bist hart im Nehmen
Genau das macht es schwer
Dir mein gebrochenes Herz zu geben
Die kalten Tage vergehen
Und ich kann es nicht verstehen
Wie kannst du es nicht sehen?
Du musst einfach mit mir ausgehen
Denn du bist die Eine fürs Leben!

#VERSE
Deine Ausstrahlung und dein Gesicht
Passt so perfekt wie ein Gedicht
Wir werden noch so viel erleben
Und das nicht im Traum
Sondern im echten Leben
Dich will ich für immer lieben und ehren
Doch eins will ich sehen
Ob wir beide den Mut haben
Gemeinsam loszulegen?
Ich will mit dir einschlafen
Und neben dir aufwachen
Denn nichts auf dieser Welt ist schlimmer
Als ein Tag ohne dein Lachen

#CHORUS
Also küss mich
Küss mich bis ich sterbe
